

SPI Cloud Platform

Cloud based data collection and visualizing platform

● Custom Dashboards

We create custom dashboards to represent your data and processes to meet your needs. Read & Control.

● Access your dashboard from anywhere

Our cloud portal and your dashboards can be accessed from any web browser, even directly from your mobile phone.

● Secure

Portal connection is SSL encrypted.
Role based login.
2-Factor Authentication option.

● Data Storage

Store data for 12 months.

● External data access

You can access your data outside of the portal using API's for use in other systems like ERP, MES etc.

● Customer SCADA Integration

We allow and can support custom integrations with your onsite SCADA systems like VTSCADA, Ignition etc.
