

SPI has been selected by four national companies as “Remote Automation Partners of Choice” in the Industrial Water, Water Utilities, and Energy Markets. This is driven by SPI’s three core values, the first of which is explored in this issue: “Remote Automation Partnerships: A Reputation Built on SPI’s Work Ethic and Customer Dedication”.

Industrial Technology Trends

A Secure Process Intelligence Publication

SPI's Core Values

Thought Leadership: SPI is an industry leader with a strong reputation built upon our work ethic and dedication

Human Sustainability and Thriving: Our technology enables affordable access to water and energy

Family Oriented Workplace: Employees are not just colleagues but are treated with respect

Supercharging Efficiency and Reliability: SPI's remote monitoring technology empowers businesses with real-time data insights, propelling operations to new heights of efficiency and reliability. A staggering **90% reduction in response time**, compared to traditional methods, ensures lightning-fast decision-making, revolutionizing the industry's landscape ^[1].

Proactive Problem-Solving in Overdrive: SPI's unwavering dedication to customer satisfaction fuels a proactive approach to problem-solving. By harnessing real-time data insights, potential issues are identified and thwarted before they materialize, preserving operations with an astonishing **80% decrease in costly disruptions**. System longevity reaches unparalleled heights, as preventive maintenance takes center stage [2].

Unleashing Savings, Unmatched Success: SPI's remote monitoring technology acts as a catalyst for seismic energy and cost savings. A remarkable **20% reduction in energy consumption** is unleashed through streamlined operations, while significant cost **savings of up to 30%** are achieved through enhanced efficiency and optimized equipment performance [3].

SPI's automation partnerships redefine possibilities, powered by an unwavering work ethic and customer dedication. With remote monitoring technology at the helm, SPI supercharges efficiency, empowers proactive problem-solving, and unleashes unrivaled savings.
